Dear Sir:

Thank you for your letter of 10th information.

As you have seen from the four-column
report in the New York Times relative to your history,
naturally, there was nothing in the report with this, but
the publicity has had some effect on those who had
been of work for you here and, for this reason, I gather
you would prefer to drop the matter of your transfer
right now.

I don't feel that this is my responsibility since
the arrangement to be made was entirely through another
branch, but I did agree to write you about it and to give
you exactly the reasons for it. So go such things in
these difficult times!

I hope things are going well and that you are
getting a great deal out of the training and that you
are finding the work interesting.

Yours sincerely,

Lawrence J. Lowman,
Major, ACS
